

ADAPTIVE LEADERSHIP AND DESIGN THINKING

Larry Ferguson, Ph.D.

KCTCS Acting Chancellor and Vice President

THE CONTEXT OF "NOW" IN HIGHER EDUCATION

- ▶ **“Employee resistance to change and management behaviors, not budget or resources, are the primary factors in 70% of failed change management programs.” –McKinsey & Company**

ARE YOU THE PROBLEM?

- **Adaptive Leadership and Design Thinking are two well regarded forms of organizational practice.**
 - Adaptive Leadership was born on the East Coast, is pragmatic and severe, somber and formal, highly established and highly “Establishment” in its orientation.
 - Design Thinking, is a product of the West Coast, is optimistic and playful, sunny and casual, innovative and entrepreneurial.

ADAPTIVE LEADERSHIP + DESIGN THINKING

▶ Technical Infrastructure

- ▶ Software
- ▶ Machinery
- ▶ Process

▶ Cultural Infrastructure

- ▶ Teams
- ▶ Culture
- ▶ Leadership
- ▶ Change

- ▶ “...change that truly transform an organization, be it a multibillion-dollar company or a ten-person sales team, demand that people give up things they hold dear: daily habits, loyalties, ways of thinking. In return for these sacrifices, they may be offered nothing more than the possibility of a better future.”

- ▶ *–Heifetz & Linsky, HBR 2002*

ADAPTIVE LEADERSHIP

Technical

- Clearly defined problem
- Clear and known solution
- Evokes a rational and logical response
- Uses existing processes, practices and behaviors
- Led with authority

Adaptive

- Not clearly defined problem. Requires learning
- Solution unknown-requires learning, experimentation and gathering more information
- Evokes an emotional response
- Challenges existing processes, practices and behaviors
- Requires engaging stakeholders and bringing them along

TECHNICAL VS ADAPTIVE CHANGES

TECHNICAL OR ADAPTIVE?

Navigate

Win and win

Empathize

Self-correct

4 DIMENSIONS OF ADAPTIVE LEADERSHIP

- ❑ Manage the context in which actors interact, not the instruction set.
- ❑ Cultivate a diversity of perspectives to generate a multiplicity of options.
- ❑ Allow leadership to be shared and to emerge from the given context.
- ❑ Constantly question the world around you.

NAVIGATE THE ENVIRONMENT

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, set against a blue background.

- See the world through the eyes of others.
- Create a shared sense of purpose.
- Reward accomplishment with autonomy.

LEAD WITH EMPATHY

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, set against a blue background.

- ❑ Enable individuals and teams to learn through experimentation.
- ❑ Develop your organization's "signal advantage."
- ❑ Increase the agility which the college is able to correct itself.

LEARN THROUGH SELF-CORRECTION

- Build platforms for collaboration.
- Deploy leadership influence beyond the boundaries of the college.
- Align the business model with its broader social and ecological context to create “social advantage” and strengthen the college’s sustainability.

CREATE WIN-WIN SOLUTIONS

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, set against a blue background.

- ❑ How many of the adaptive leadership practices we have discussed do you currently employ?
- ❑ Do you have the right leadership dimension skills for your college “now”?
- ❑ What changes could you make to develop a more adaptive approach to leadership?

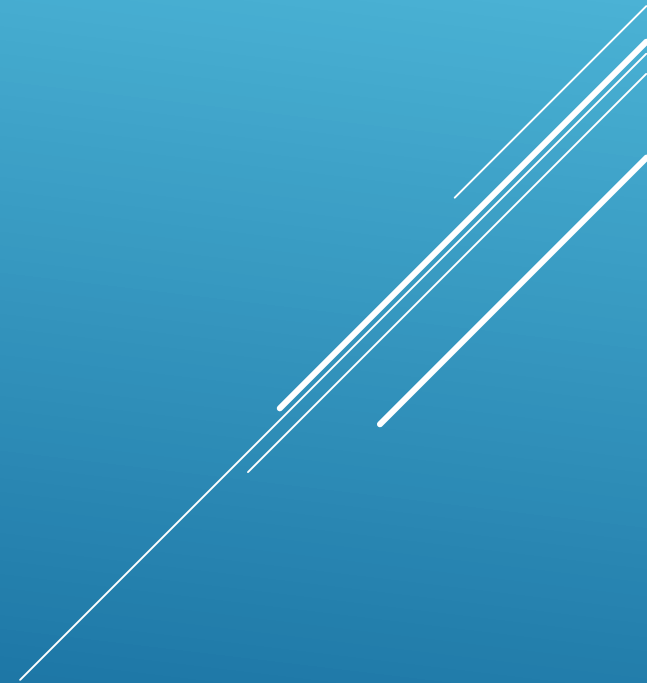

SELF-ASSESSMENT

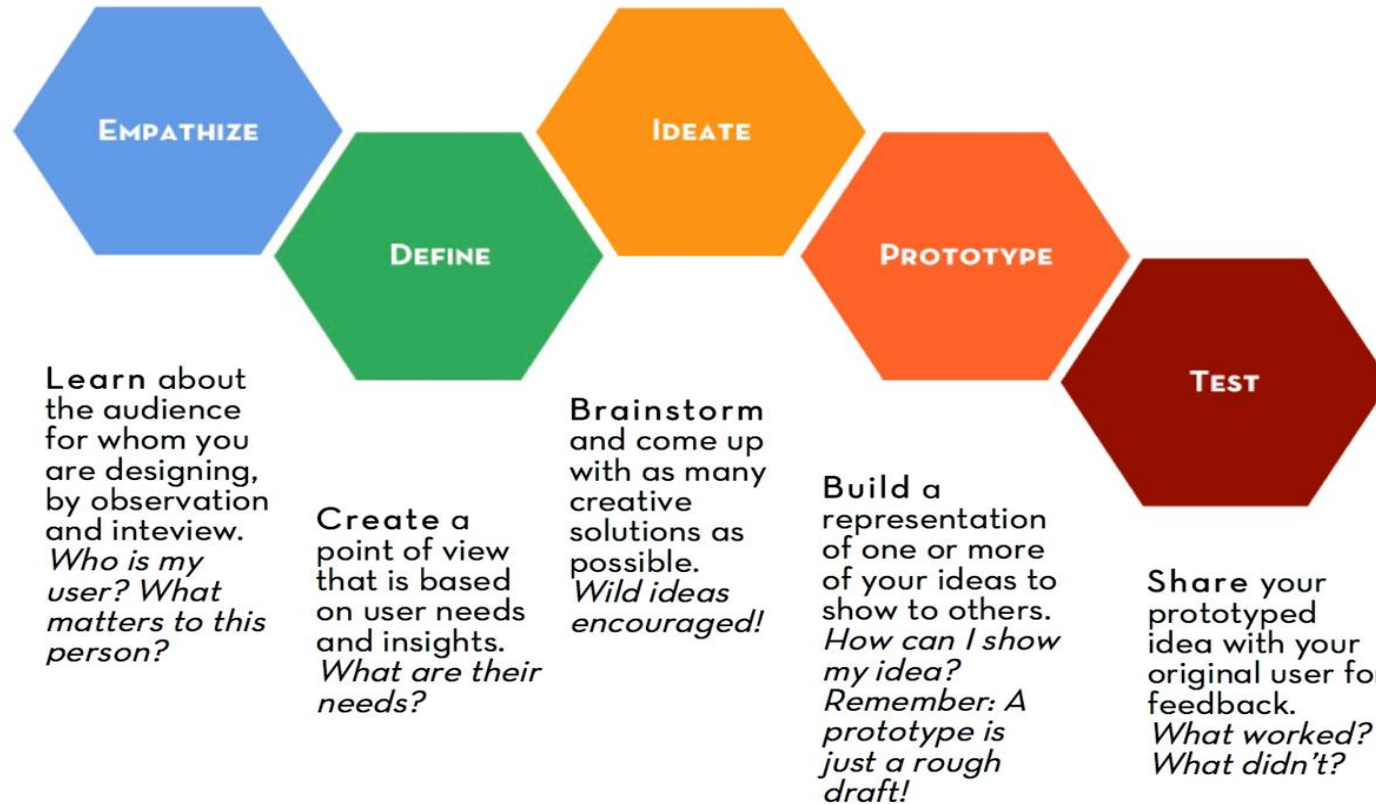

ADAPTIVE LEADERSHIP + DESIGN THINKING

WHAT IS DESIGN THINKING?

We are all DESIGNERS!

SOLUTIONS BY DESIGN

human
centered

mindful
of
process

culture
of
prototyping

MINDSETS

bias
toward
action

radical
collaboration

show
don't
tell

- ▶ Divide up in groups of 3-4 people
- ▶ Introduce yourselves
- ▶ Time to act

TIME TO DESIGN

A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

- ▶ Faculty & Staff Engagement
- ▶ Economic/Workforce Development
Community Members/Industry Leaders
- ▶ Student Success/Retention

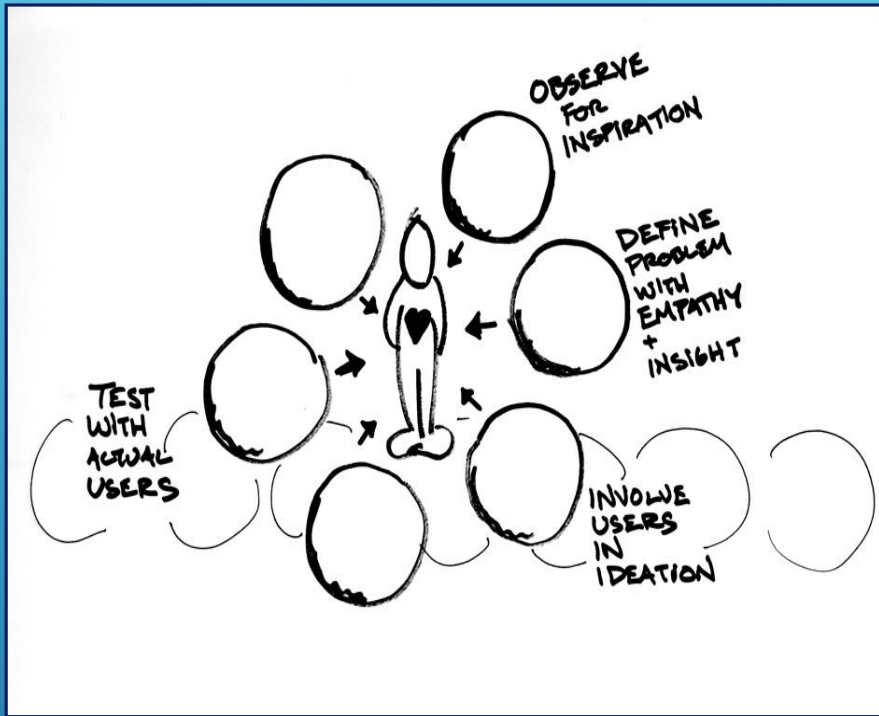

AREAS OF FOCUS

A decorative graphic consisting of several parallel white lines of varying lengths, slanted diagonally from the bottom right towards the top right, set against a blue background.

- ▶ Think of your specific challenge & audience
- ▶ Create an empathy list to serve as your foundation
- ▶ How might they feel about the challenge
- ▶ Create an empathy map with your group

EMPATHIZE

- ▶ Define what those impacted might need and feel
 - ▶ Technical & Cognitive Skills
 - ▶ Psychological & Emotional Traits

DEFINE WITH EMPATHY & INSIGHT

- ▶ How can you incorporate these skills & traits in your plan?
- ▶ How can faculty/community members/students participate?

IDEATE

- ▶ Prototype at least one lesson, strategy, or teaching technique that you can implement next week

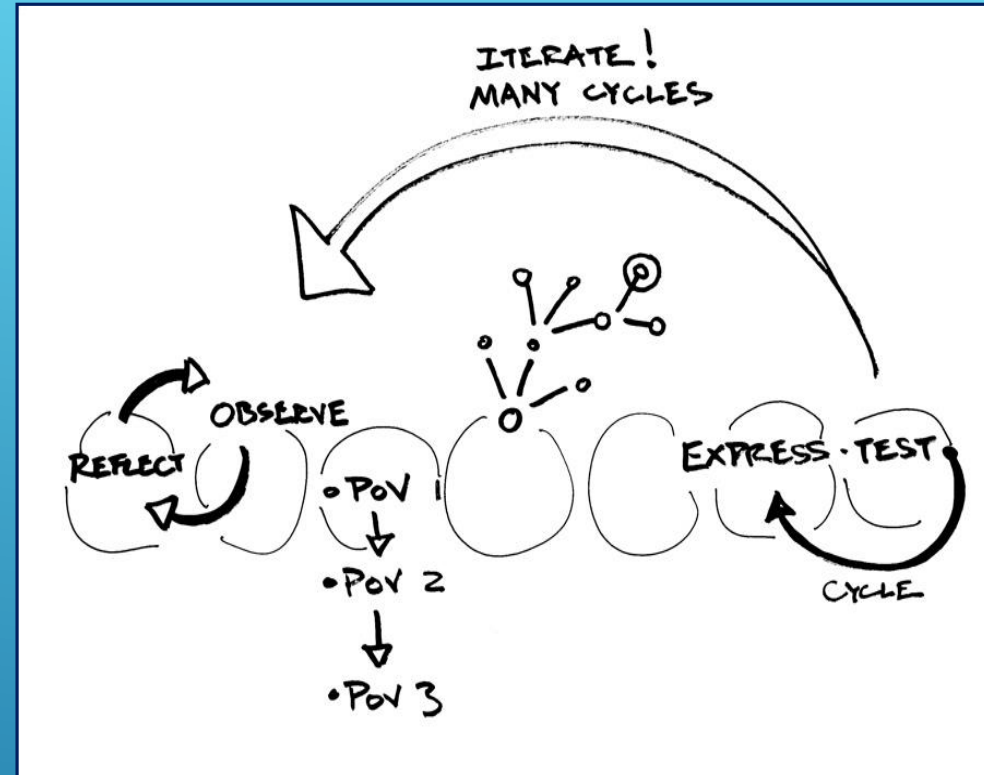

PROTOTYPE

- ▶ Try your prototype
- ▶ Present to the group as the prototype, not a presentation
- ▶ Up to 7 minutes
- ▶ Collect feedback
- ▶ Iterate

ACT & ITERATE

- ▶ Please share with us how you think you could use Design Thinking to approach a challenge
- ▶ We are in this together!

ITERATE & SHARE

QUESTIONS AND DISCUSSION
